

Horizontal Cable Managers

2U Horizontal Cable Manager with Pass-Through

LYNN's second generation horizontal cable managers have taken a proven design and made it better. The wider finger ducts allow cables to be cleanly routed and moved without needing to re-dress the entire rack. The rear feed-through ports eliminate the need to waste valuable rack space with a pass-through panel. The all-plastic housing is made from ABS to prevent damage to cables.

Features:

- Snap on cover for easy access
- 12 finger openings, 2-inch deep
- Two “waterfall” feed-through ports in the rear
- Sturdy black ABS plastic

MODELS	
CBL-MGR-2U-V2	Horizontal cable manager, 2” finger duct with snap on cover and feed-through, black, 2U

TECHNICAL SPECIFICATIONS
